

Integrated Management Policy

At **Euro Logistic Group C.A.**, a company dedicated to Integral Logistics Operations, we are committed to achieving the satisfaction of requirements and expectations of our clients and other relevant interested parties, offering an excellent quality and safety logistics service, based on continuous improvement of the processes and risks reduction, considering the Organization's internal and external contexts. We promote security on the use of technology and information, the prevention of potentially illegal activities of corruption and bribery, in international maritime trade as well through:

- The implementation of a management system,
- International trade agreements,
- Application of the ISPS code
- And the compliance with applicable legal and regulatory requirements.

For the fulfillment of the objectives, goals and expected profitability, we have a qualified, motivated and highly committed staff.
